

RIVERSTONE NEIGHBOURHOOD CENTRE
& COMMUNITY AID SERVICE INC.

ANNUAL REPORT 2021-2022

OUR VISION

OUR PURPOSE

OUR VALUES

Building a stronger community together.

A safe, harmonious, socially connected and informed community.

We work collaboratively to achieve our vision by:

- Improving wellbeing and empowering individuals and families to live independently as part of the community.
- Supporting individuals to make their own positive lifestyle decisions.
- Providing high quality services, facilitating localised innovating solutions, and advocating for the community.
- Harnessing community strengths to enhance community cohesion.
- Concentrating resources in our community to help build social inclusion and reduce marginalisation.

Our values & beliefs are central to all that we are.

RESPECT

We treat others as we would like to be treated. We honour each other's strengths, potential, experiences, views, time, and contributions.

INTEGRITY

We are honest, authentic, transparent, and accountable in our work.

INCLUSION

We welcome and include all.

SUSTAINABILITY

We operate effectively to support and maintain the highest standards and remain functional for the community.

EQUITY

We treat each person as an individual and apply fairness and justice to all we do.

FROM THE PRESIDENT

MICHAEL COGAR

It has been another year of change and disruptions for the staff and Board of the Riverstone Neighbourhood Centre and Community Aid Services Inc.(RNC). COVID-19 continued to shake us all up and cause numerous closures to the Centre, forcing further reliance on our hastily contrived on-line services model, which thankfully withstood the weight of service requests placed upon it. In addition, we had La Nina to contend with, bringing with it yet more repetitions of flooding to the Hawkesbury valley, and placing further drains upon the creativity of the RNC staff to provide extra solutions and services to help those who were so severely affected.

We recognised early that we needed to rethink our current IT infrastructure to ensure that even if the Centre was impacted and forced to physically close, we could continue to provide services and support, even if the staff were forced to work remotely. In addition, with the opening of service centres in Elara and Tallawong, we needed to guarantee staff access to all the IT resources required to continue 24/7. Thanks to some planning undertaken early in the year, and funding from Department of Communities & Justice, we have been able to move forward with the implementation of a cloud based IT model, that will serve us into the foreseeable future with location autonomy, in fact with the ability to work as if in the Centre office, anywhere we can get an internet link. This will also include work on our telecommunications assets to ensure we can offer service continuity regardless of disasters. This should be fully implemented by XMAS 2022.

This IT infrastructure planning is part of a new strategic plan and vision that the Board and management have been working on for the last 12 months and which is due to be launched at the AGM in November. In addition, as part of this strategic planning, we have been examining ways to handle the necessary funding reforms that will be forced upon RNC

by the Governmental funding changes in the Aged Care services area, amongst others. These changes will require RNC to seek additional sources of funds as the demands of the community increase due to population growth in our area. And as we are required to service more people, the RNC must also grow, necessitating us to focus on growing our annual revenue to keep pace.

Our financial viability remains strong, but we must continue to work towards new relationships with business, such as those we currently enjoy with DEICORP Community and Stocklands, to ensure that future growth is keeping pace with the increased population. We must also work to secure new opportunities for Community from new and unlikely sources, such as Clubs and other charitable organisations, whose aims and directions coincide with those of RNC.

Our revenue for the past year has stayed above \$1 million, with a slight growth even through the worst the pandemic and the floods threw at us. On behalf of the Board, I would like to thank all the RNC Team members who worked so diligently throughout difficult times to ensure the successful service outcomes for our community. Also I mention especially all those Volunteers who pitched in and assisted the Team to achieve so much for their community, including the successful Flood Relief shop and material distribution. Thank you to all my fellow Board members, who volunteer their time and efforts for their community, ensuring we remain committed to pursuing RNC's mission of "Building a Stronger Community Together."

Michael Cogar- President of the Board- 2021-2022

FROM THE CEO

ANGELA VAN DYKE

What a year we had through 2021-2022!

Ongoing disasters, with both COVID and floods. It could best be described as a “big impact” year. We saw impacts on community, on businesses, on our workforce, on families, and across all ages. We also saw big impacts from generosity and giving.

Riverstone Neighbourhood Centre (RNC) focused on supporting our community through the ever changing world of managing COVID. We offered vaccination clinics, free RAT tests, developed COVID safety plans for residents to prepare for lockdown and provided support with access to essentials such as groceries and medicines. Not surprisingly, as households struggled with loss of income and increasing living costs we have seen an increasing demand for our Emergency Relief services. We are grateful to the North West Business Chamber, hosting a fundraising event for our Dollars For Dignity, raising \$38,000 for our Emergency Relief program.

The floods impacted our buildings and our community. We were grateful when the team at Elite Landscapes rallied to help us sandbag and protect our buildings from further water. We formed a working group with the North West Business Chamber, SES, Resilience NSW, Infrastructure NSW and Blacktown City Council, enabling us to provide an improved local response, and advocate for a local flood recovery centre. We thank Blacktown City Council for their work with us in the design of our Recovery Centre, and for providing free shop front space for our Flood Pop Up Shop. Special thanks also to the North West Business Chamber who worked tirelessly with us to engage with community, and jointly run the Flood Pop Up Shop, secure donations and volunteers. Our efforts in flood recovery were monumental, and we have been told our approach is best practice. We remain humbled by our community’s strength, resilience, and generosity, and we are

proud to see our community grow stronger and more connected.

We have seen a deterioration in mental health amongst our community, with lengthy wait lists for services. Our team continue to innovate when we identify emerging needs and gaps. We have initiated a new mental health support program and a training and employment program. Both have delivered wonderful outcomes to date. If anyone is looking to fund or donate to a fantastic initiative, please call us!

We had a busy year with a range of new government grants secured, funding our gambling service, COVID support, service sustainability and infrastructure. This funding has enabled us to review our operations, to enhance growth and efficiency into the future, repair buildings that were leaking and offer new services and programs.

We were thrilled to secure funding from Stockland and DEICORP to provide a range of community engagement initiatives and essential services. As we have emerged from lockdowns and lived through various disasters our community have been keen to connect! Importantly, financial household pressures have meant our services and programs, often free or low cost are becoming essential for residents. We look forward to a productive 2022-2023 with both DEICORP and Stockland!

We continue to provide training opportunities, school holiday programs, parenting programs, supported playgroup, tutoring programs, volunteering, aged programs and many more! Whilst we see great value with the development of innovative technology and apps, throughout our disaster response people told us that technology can never replace human connection, and what they really needed was human connection!

I thank my staff, who have persevered in the face of growing and never ending adversity. They are qualified and skilled professionals who have gone “above and beyond” to support our community through unprecedented, consecutive disasters. My gratitude to our Board, who have been committed, passionate, and unwavering in their response to support our organization as it manages complex disasters, service and funding reforms and developing a new strategic vision to sustain the organization into the future. Our RNC team, both staff and Board members are gems and I am privileged to be working with them!

I extend a heartfelt thank you everyone in community that has been part of our journey over the last year. Our funders, many donors, volunteers, businesses, stakeholders, and clients.

We have had a big year, but it was also big in goodness! We have been humbled at the immense generosity of our community, with various donations by businesses, various community groups, schools and individuals. Every contribution, no matter how small, joins a collective effort that delivers a BIG impact! For that, I say THANK YOU!

Our community never ceases to amaze me! The past year has seen significant disaster related challenges, but it also gave us immense kindness, connection, joy and hope! With human connection we are “Building a Stronger Community Together.”

FAMILY & COMMUNITY CONNECTIONS

TARGETED EARLY INTERVENTION SERVICES

The Family and Community Connections team offers support to families, children, youth and vulnerable people. Our programs aim to facilitate connection through our community events and social groups, build capacity by providing opportunities for training and community development, and to offer assistance so all community members have the necessities to meet their basic needs during difficult times with emergency relief and case management. Our services strive towards empowerment, focuses on resilience and highlights strengths in our community. Not surprisingly, the past year saw the delivery of many online activities, intensive support for our most vulnerable, and a continued focus on disaster activities.

COVID RESPONSE

During covid we offered three community COVID vaccination clinics, and two with a focus on trades and teachers. Given the long lockdown in 2021, and strict travel limitations for Blacktown City, we worked intensively supporting people with Emergency Relief, food hampers and accessing medical needs, supporting students with care and engagement packs, and offered a vast array of online activity and information. Our aim was to support our community to function and remain compliant during this time. All our activity was FREE, as we were seeing the impacts of financial pressures on households. There were numerous online COVID sessions, including:

- My COVID Safe Plan
- COVID Disaster Payment
- Register your COVID bubble buddy
- Service NSW travel permit
- 9 Q&A COVID sessions

We also offered a vast array of online activity to support families, young people and the community generally, including:

- DCJ Aboriginal Traineeship Information
- University Short Courses
- ABC Education shows
- Cooking activity
- Arts and Creative activity
- Storytime
- Health and exercise activity
- Gambling information and support
- Learning CPR online

FLOOD RESPONSE

We were on the ground working with community and emergency services to support our community when floods struck. We facilitated a small, pop up recovery centre in March for impacted community members with our valued partners: Service NSW, Services Australia, Resilience NSW, and Blacktown City Council. We partnered with the North West Business Chamber to host our Flood Pop-Up Shop, offering a vast array of donated goods enabling our flood affected households to rebuild their lives.

Our flood response in June- July was significantly higher, as we saw higher impacts on our community. We collaborated with our Council and disaster agencies to host a 3 week Flood Recovery Point, that provided targeted supported from a range of public sector agencies, and offered grants, mental health support, housing and legal support and much more. Our service was pivotal supporting clients in heightened states of vulnerability and distress. We offered case management, essential items such as food, medical, cleaning products, and with the support of the North West Business Chamber we were able to offer everything needed for families to set up new homes.

The level of giving from our community throughout this year has been tremendous, with an unprecedented level of financial and In-Kind donations to our Emergency Relief Program.

NEW INITIATIVES

Despite a challenging year managing disaster responses, we were able to initiate new and exciting ventures, including our therapeutic programs and youth counseling service. The impact of rolling disasters on children and young people has been significant, and we see a service system that is choking with demand and long wait lists. We have responded by creating a service that assists people whilst they wait to access mainstream mental health services. We are calling on financial support or sponsors for this initiative, enabling us to offer more support to youth in need.

We implemented a small scale pilot of a youth employment initiative. We engaged vulnerable young people, and provided individual, tailored support to address issues that may diminish their capacity to secure training and employment. We offered coaching sessions, casework, free certificate level training and a weekly incentive to complete the program. Our pilot has given us wonderful insights understanding the elements that enable successful recruitment, support and completion of the program for young people. We are thrilled that all participants have secured paid employment. We are seeking financial support or sponsors to help us replicate and grow this opportunity for more young people.

Thank you for the seeking urgent dental treatment for my 3-year-old. You saw her pain and how long the wait list was and actively searched for other options, advocated for my child and provided support to both of us during this period. You have no hesitation to seek alternative routes to improve her quality of life. You booked appointments and relayed medical opinions in a way that my family could understand. Thank you for your empathy, selfless caring and relentless attitude to supporting my family.

You were able to support me and the family through assisting with our gas and electricity bills. This service allowed me to breathe a little easier as it took the strain off having to pay big bills and I could afford to buy food and other crucial items during the flooding and rebuilding period. From flooding, helping find alternative real estate, moving homes, support and referrals for my children and grandchildren, legal matters, financial hardship and mental health problems Alex has been a light in the dark. The advocacy, programs, services, food parcels and bill support has saved my life.

TARGETED SUPPORT

I can't find the words to thank you for the service and care you have given me and my family. In our hardest moments you provided a light in the dark, so words will never be enough to express my gratitude towards your kindness to me and my family.

- CLIENT QUOTE

Thank you for the help and guidance through the flood periods. The food parcels, children's activities, furniture, cleaning products and clothing was much appreciated. We were very overwhelmed by the generosity of you and the Riverstone Neighbourhood Centre. even though what you do is critically important to so many people in the community, you still made time to call or text me to check in and see how we were all doing. Thank you for caring, it means so much to us all.

AGEING & WELLNESS

SOCIAL SUPPORT

Riverstone Neighbourhood Centre (RNC) provides a range of services and programs for older people in our community. Our funding from the Commonwealth Home Support Program (CHSP), aims to help Seniors to stay physically and mentally active through a number of social support programs and activities. We offer services as part of “My Aged Care”. We utilize a framework of wellness and re-ablement, to ensure our services are person centred, that our clients can establish their own life goals, as their circumstances and needs change. Our aim is to offer people dignity of choice, maintaining a quality of life and meaningful activity, and ultimately, remaining living independently in their home.

Our service provides individual and tailored support for older people, and this may entail assistance with transport for shopping or medical needs, building capacity utilising technology to maintain independence at home etc. We offered information sessions on navigating aged care systems, other issues pertinent for seniors and importantly, changes due to the national aged care reform process. We also offer a range of group based, social, health and wellness activities.

After lengthy COVID lockdowns and outbreaks in our community, along with travel restrictions for our Local Government Area, our team have been focused on supporting our seniors to remain well throughout lockdown. This included support accessing shopping, household and medical supplies etc, and encouraging and supporting some of our seniors to build the skills to utilise technology and engage in our online world. We offered online exercise groups, online and phone conference meetings amongst staff and participants and as we emerged from a very long lockdown in Sydney in 2021, our clients were keen to resume face to face activity. The impact of long lockdowns has been significant for our seniors, and we saw a deterioration of both physical and mental health. Establishing social connection and well being activities was crucial as we entered 2022.

We resumed our regular outings, with the Mother’s Day Celebration at the Fiddler proving to be very popular! Whilst we remain living with COVID safe practices, we have seen our seniors engage very pro actively to continue “living” whilst being as safe as possible.

We have offered our regular suite of group activities, such as our men’s shed, card making etc, and are delighted to have offered some new activities, such as dance fitness, clay making and a walking group. We formed a new partnership with the Royal Botanic Gardens and Trust to establish new initiatives in our community garden.

It was exciting to offer a new Senior’s Clay group as an 8-week program where participants would complete a Clay artwork in relation to the weeks theme. e.g. cats, flowers, owls. We were amazed at how many seniors engaged with this new initiative! Each session would finish with social time and a cuppa. The last session for the program had an ‘Alice in wonderland’ theme with a ‘Mad Hatter tea party’ to celebrate the new skills, fun and friendships that had been made. Participants were resolute that they wanted this program to continue!

Feedback from our seniors has been extremely positive throughout the year. The lockdowns have escalated their desire to have more social connection than they did previously, and it has also created a willingness to try new things. Our focus is now expanding the programs and activities that are on offer, listening to what our seniors need and want, whilst navigating a complex national reform agenda.

COMMUNITY VISITORS SCHEME

It has been an equally challenging year with our Community Visitors Scheme (CVS), funded by the Australian Government. CVS provides social support opportunities for older people living alone with limited social connections. It is a fee-free service. To support CVS, RNC recruits volunteer visitors who provide friendship and companionship to socially isolated older people living in residential aged care services.

Our CVS volunteers made a real difference this year! Through the pandemic and lockdowns, volunteers provided social support by regular phone calls, cards, and letters. We organised Pamper Day visits to aged care facilities in the Western Sydney and Nepean regions. Older participants were thrilled with the afternoons of fun, with lots of conversation and some of the seniors had their nails coloured and hands massaged. Treats and little gifts were prepared, including craft puzzle packs that were hand made by our clients in our men's shed.

We introduced the 'You've Got Mail Project' in June 2022; Community members were invited to share uplifting words, and stories on postcards and RNC volunteers would deliver these postcards to older people living in aged care facilities. This easy to take part in initiative was to increase community connections and to further assist and uplift the spirits of the senior recipients.

Regular visits and engagements from RNC volunteer visitors have helped these seniors feel less isolated and has improved their quality of life. Benefits for the older person has been increased feelings of wellbeing and for the volunteers it has been a rewarding, life enriching experience.

Riverstone Neighbourhood Centre is a small organization but big at heart. The staff are excellent, caring and accommodating. There is always a welcoming smile, and a helping hand. During lockdown I had a lot of help with my computer, email and learning to use facebook. I couldn't go to the apple store for help because of COVID. The staff are so patient, and I was able to catch up with the world with my new skills.

I struggle to get out due to my poor health, but I love the help with transport and having someone spend time with me. Riverstone Neighbourhood Centre are always there to help when I need it. I hope they keep providing this amazing service.

OUTREACH SERVICES

STOCKLAND ELARA MARSDEN PARK

It was an exciting year as we secured a new opportunity with Stockland, to offer a community engagement strategy within their development at Elara, Marsden Park. Our focus areas of activity are:

- Create new and varied programs and activities
- Establish regular community groups
- Provide outreach services
- Reopen the Elara Community Hub to hirers
- Establish potential partnerships and collaborations
- Engage in community consultation and advocacy

Despite the challenge of COVID and a long lockdown in Sydney, Riverstone Neighbourhood Centre (RNC) has developed a range of activities and services for the Elara Community, focusing on Health & Wellbeing, Community Connection, and Education. These programs included activities such as yoga, fitness classes and lifestyle groups, school holiday activities as well as providing residents access to services such as aged and disability services, financial management, family assistance etc.

Stockland offers a community-based space which is available for Elara Residents to access a range of local activities. Riverstone Neighbourhood Centre manages this community space on behalf of Stockland with the aim of building increased social connection within community.

HEALTH & WELLBEING ACTIVITIES

RNC has focused on providing Elara Residents health and wellbeing programs, by running a variety of safe, fun, and inclusive programs that range from school holiday sports clinics to cardio fitness classes for elder residents. We have partnered with Rec link Australia who provide professional coaches and facilitators who share a passion for working with the community in a sport and recreational environment. RNC strives to provide programs which are free for our local community, ensuring everyone can participate. We established walking groups and a range of community workshops such as CPR first aid, and fire safety at home.

COVID BOOSTER CLINIC

To help keep the Elara community safe during the recent Covid-19 pandemic, RNC partnered with the team from Bill Crews Foundation to organize a Covid Vaccine Booster Clinic to visit the Elara Community Hub. This activity encouraged the community to get their booster shot by making a vaccine clinic accessible and within a familiar environment. It was an efficient way to deliver the vaccine to the community and help to increase the vaccine coverage of Elara, helping to protect our elderly and vulnerable.

We now have a monthly calendar of activities & programs:

- Weekly wellness and exercise classes on Mondays and Wednesdays.
- Weekly craft classes – clay making program.
- Deliver at least 2 educational seminars a month including Aged Care Navigation, Energy & Water Forum & CPR training for Volunteers etc.
- A monthly community engagement activity, such as coffee with a cop, RFS community event, Volunteering Information morning teas.

This is just terrific that you have already organised a parents and bubs walking club! I will personally send this to our neighbours and will post to the St Luke's community!

- Stephanie Sudzina Campanale

OUTREACH SERVICES

DEICORP COMMUNITY

Our collaboration with DEICORP has enabled a range of valued programs and services for our community. The pandemic meant we had to adapt or postpone some activities, particularly some events. There were further difficulties as our community was impacted by floods. Sponsorship by DEICORP Community enabled us to offer even more targeted support for our most vulnerable, sponsored the costs of our community bus, sponsored a number of community events, and sponsored our valued school tutoring program.

We were able to offer Intensive targeted support and counseling for individuals, particularly young people, who had complex needs and have long wait lists with existing mental health services/providers. This part of the service from our partnership enabled people to be supported as they waited long periods for access to public services. Clients identified with a range of issues, notably 100% with mental health, 60% with trauma, 40% with poverty/financial disadvantage, 40% with relationship issues/breakdown, 20% with domestic violence, 20% with homelessness, 20% with addiction issues.

DEICORP Community sponsored the cost of our community bus. Whilst the pandemic had a significant impact on how many clients could use the bus, we were thrilled to have it available for transporting essential items as part of our flood relief efforts!

Whilst there were limited opportunities for traditional community events due to COVID, we were delighted to participate in the Riverstone Community Christmas events and the Riverstone Festival. Given two years of lockdowns our community came out in large numbers to support these events. Every effort was made to maintain COVID safe activity! Feedback from our community was extremely positive, with a clear message that we humans need “social connection locally in community.”

We were thrilled to see the official opening at the Tallawong Hub site, with a special event of “sod turning”. Many joined us to witness a momentous occasion, as we see our neighborhoods evolve into vibrant new communities. Indigenous woman Erin

Wilkins gave a moving welcome to country, noting how the land of the Darug Nation is changing rapidly and the need for all to respect each other’s culture and ensure we find ways to maintain Aboriginal heritage.

We have hosted several meetings and activities at the Tallawong Hub. School Holiday activities are always popular, along with the current health and wellness programs and mobile library. We aim to increase activation at the hub over the next year.

“It has been lovely to watch my child’s confidence grow during these tutoring lessons. It has been great to see her learn and grow in a safe and encouraging environment. I can’t afford to pay for tutoring. This has been so worthwhile for our family”

- MELISSA

GAMBLING SERVICES

Our Gambling Awareness initiatives have been funded by the NSW Office of Responsible Gambling. The program focuses on raising awareness and education of gambling harm and promoting help seeking behaviour, across the Blacktown Local Government Area.

We have delivered a range of exciting initiatives throughout the 2021-2022 year. We were actively engaged with the Blacktown Alliance for the Reduction of Gambling Harm, bringing together a range of local services to undertake joint initiatives across the City. This included sector development and training, keynote speakers focusing on gambling within the Aboriginal and CALD communities and events for Youth Week and Gamble Aware Week.

We offered gambling training for staff, along with gambling information, speakers and training at our Riverstone Interagency and Koori Interagency.

Our service offered information/referral, in addition to financial counselling for people experiencing vulnerability.

We developed the “Help Us Help You” campaign, encompassing a standardized self- screening tool. The screening tool was supported with a multimedia campaign in the waiting rooms of GP clinics. We hope to expand this initiative in the coming year.

We were excited to pilot a small scale promotional activity with Riverstone Schofields Memorial Club, as Ambassadors working with our sector to promote gambling awareness and education within community. This initiative entailed a multimedia strategy within the Club.

We reached many thousands of people with promotion via facebook, our webpage and published articles in the Hawkesbury and Blacktown Independent. This activity was further supported with community engagement at local events.

We were thrilled to announce a partnership with the Multicultural Problem Gambling Service to provide In Reach Services at our centre, making it easy for local people to access specialist support.

Community feedback indicates the work is valued as we contribute to a broader statewide approach to address the stigma around gambling harm within our communities.

Bill Support Day**

Riverstone

Third Wednesday of every month

Where

Riverstone Neighbourhood
Centre
9 Park Street, Riverstone

When

Starting 20 July 2022
continuing on the third
Wednesday of every month
thereafter
Appointments available
from 9am - 3pm

What to bring

- Concession cards
- Copy of latest or past energy and water bills if available
- Letters from retailers (if any)

ALL WELCOME

Specialist staff from the Energy & Water Ombudsman will be available at Riverstone Neighbourhood Centre each month to assist residents and small businesses in the Blacktown area.

They can help you:

- understand your bills and charges
- check your eligibility for energy, water and medical rebates
- resolve complaints
- talk to your retailer about contract issues, payment plans and rebates
- provide tips on how to reduce energy and water consumption

Bookings are essential

Please phone Riverstone Neighbourhood Centre on 02 9627 3622 to book an interview time. (telephone appointments also available)

Interpreters available - please let us know the language required when booking.

You can contact EWON to make an energy or water complaint.

CHILD AND YOUTH COUNSELLING AND CASE MANAGEMENT SERVICE

Issues we can help with include:

- Psychological and social issues, such as:
 - depression and suicidal ideation
 - self-harm
 - anxiety and panic
 - self-esteem
 - grief and loss
 - stress management
 - emotional regulation
 - social skills
 - attachment issues
- Experience of trauma or abuse
- Sexuality and gender issues
- Alcohol and other drug use issues
- Behavioural issues
- Relationship issues
- Issues related to being in a vulnerable or 'at risk' situation (e.g. homelessness, family conflict)

Child and Youth Counselling and Case work are free and confidential services offered to school aged children and young people who are aged 12 - 24 years.

Child and Youth Services provide a coordinated, holistic and multifaceted approach to supporting children and young people. We take a client centered, strengths based approach that is respectful and supportive of clients and their families. Interventions used are individualised and developmentally appropriate. This includes expressive therapies such as Art Therapy and Play Therapy.

Engagement and Referrals:

- Child / young person not accessing counselling as any other service.
- We accept self-referrals and assisted referrals through parents, family members, friends, GP's, school counsellors, or other service providers with the young person's consent.
- Referrals can be made via the phone, in person or via email through the Worker On Duty.

For information or referral please call Vanessa at Riverstone Neighbourhood Centre on 9627 3622.

**DECLARATION BY MEMBERS OF THE MANAGEMENT COMMITTEE
FOR THE FINANCIAL YEAR ENDED 30 JUNE 2022**

As detailed in the Statement of Accounting Policies in the Notes to the Accounts, the Corporation is not a reporting entity and these accounts are Special Purpose Financial Reports. These accounts have been drawn up in accordance with the accounting principles and methods prescribed by Statements of Accounting Policies and applicable Accounting Standards to the extent detailed in the Notes to the Accounts.

The Management Committee declares that:

(a)

The attached financial statements and notes thereto comply with the Associations Incorporation Act 2009 and applicable Australian Accounting Standards;

(b)

The attached financial statements and notes thereto give a true and fair view of the financial position and performance of the corporation; and

(c)

In the Management Committee's opinion, there are reasonable grounds to believe that the corporation will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the members of the Committee.

On behalf of the Board
